SUMMARY

Driven and versatile 3rd Year Computer science student with hands on experience in full stack development, UI/UX principles and database management .Can work in fields relating to Software development, computer networking, system administration, Hardware maintenance, system configuration and on site technical roles. I am Seeking a three months industrial attachment opportunity at your organization for the may to August period. Brings discipline, teamwork and problem solving to support and contribute to improvement and growth of your organization.

EDUCATION

University Of Embu, Bsc Computer science

09/2023 – 09/2027 | Embu

I am a 3rd Year university student at the university of embu since sep 2023. I have gained various skills in the field of computer science including but not limited to Networking, software engineering and AI. I'm looking for an opportunity to apply this skills in the real world environment solving real world problems.

SKILLS

Front end development (building software landing pages using languages eg html ,css, react.)

Backend development (using node js and api handling using postman)

Database maangement (using relational and non relational databses eg firebase, supabase)

UI/UX (Designing user intefaces and improving user experiences eg usability testing)

Fast Learning and continous improvement (I am quick paced in learning and addicted to continuous improvement)

Working Under Pressure (Can work under immense pressure and tight deadlines)

PROJECTS

Course Corner Kenya, *coursecornerkenya.com*

a platform that helps kenyan students get qualified custom courses and campuses based on their KCSE performance.

University of Embu Lost and Found Platform, *<https://lostnfounduoem.vercel.app/>*

a platform that reconnects people who have lost their items within the institution with their items by allowed uploads of found items

Ezy Bite, *<https://ezy-bite.netlify.app/>*

Online snack ordering system with inbuild mpesa payment
